

Southern Christian Home Projects List

This is a list of areas that need attention on our campus. Many of the things on this list are outdoor projects, some will also require the use of a ladder. We also have indoor projects available. This list is always evolving and is not comprehensive. If you have any further questions, please contact Zach Loudon at 501-354-2428. If you or your group would like to take on one of these projects or the funding of these projects, please let us know and we will help figure out all the details. An estimated price is provided but it is only a basic estimate. Our hope is that individuals or groups will take on projects and their funding. However, we will work with volunteers to provide materials and tools when possible. If you are unable to provide the labor but would like to financially support any of these projects, you can donate via the support us tab on our webpage or via check sent to the address found on the website www.schome.org. Please note the specific project the money is for, so we can make sure it is used according to your wishes. Thank You for your generosity and interest in helping the children at Southern Christian Children's Home. **Highlighted Items have been completed.**
